

Federal Qualifications

Since our inception nearly 20 years ago, **Bioengineering Group** has provided innovative, sustainable solutions to federal clients related to site planning, development, and stormwater management challenges. We understand the unique complexities surrounding federal projects as well as the mandates and procedures that accompany working with our federal clients. Bioengineering Group currently serves as a managing member of a joint venture executing \$200 million in planning and A/E services under two 5-year IDIQ contracts for USACE/New Orleans. These contracts support the District's Hurricane Protection Office (HPO) as well as the Protection and Restoration Office (PRO) in the reconstruction and improvement of hurricane protection measures and coastal ecosystem enhancement in New Orleans and its surrounding Parishes. Our project work has spanned the United States and earned us a reputation for being "**a visionary and creative team that has the ability to execute and negotiate across disciplines.**" (D. Jeffrey Smith, BRAC Program Manager, Strategic Integration Branch HQ, US Army Corps of Engineers)

Contract Vehicles (Current)

Prime

NRCS - AG-3A75-C-10-0018

IDIQ A/E Services for Conservation Planning Services for Work in the US, Saipan, Guam, and the Caribbean
Award date: 8/2010; Anticipated end date: 8/2015

USACE/ERDC/CERL - W912HZ-10-BAA01

Net Zero Investigation and Pilot Program for DOD Services Installation Energy Security and Second-Law Water and Energy Management
Award date: Pending FY11 CRA

USACE/ERDC/CERL - W9132T-10-C-0011

USACE BAA Energy Flow Analysis for Ultra-Low Energy Communities
Award date: 1/2010; Anticipated end date: 6/2011

USACE/ERDC-EL - W912HZ-09-P-0336

USACE BAA Chemistry Support
Award date: 8/2009; Anticipated end date: 8/2012

USACE-PRO - W912PB-07-D-0062

General Design Support Services and Multidisciplinary Planning Primarily within Limits of New Orleans District
Award date: 8/2007; Anticipated end date: 8/2012

Subconsultant

USACE/Rock Island - W912EK-09-R-0002

IDIQ Regional Multi-Discipline A-E Services
Award date: 1/2010; Anticipated end date: 1/2015

USACE/Pittsburgh - W911WN-09-R-0003

IDIQ A-E Contracts for Engineering Design and Related Services
Award date: 11/2009; Anticipated end date: 11/2012

USACE/Huntsville - W91DY-08-D-0025

MATOC NationView/Bhate JV Centers of Standardization, IDIQ, Childcare Centers at Various Facilities
Award date: 2/2009; Anticipated end date: 4/2011

NAICS Codes

- 113210 – Forest Nurseries and Gathering of Forest Products
- 115112 – Soil Preparation, Planting, and Cultivating
- 115310 – Support Activities for Forestry
- 236210 – Industrial Building Construction
- 236220 – Commercial and Institutional Building Construction
- 237110 – Water and Sewer Line and Related Structures Construction
- 237120 – Oil and Gas Pipeline and Related Structures Construction
- 237130 – Power and Communication Line and Related Structures Construction
- 237310 – Highway, Street, and Bridge Construction
- 237990 – Other Heavy and Civil Engineering Construction
- 541310 – Architectural Services
- 541320 – Landscape Architectural Services
- 541330 – Engineering Services
- 541360 – Geophysical Surveying and Mapping Services
- 541618 – Other Management Consulting Services
- 541620 – Environmental Consulting Services
- 541690 – Other Scientific and Technical Consulting Services
- 541711 – Research and Development in Biotechnology

541712 (primary) -- Research and Development in the Physical, Engineering, and Life Sciences

- 541990 – All Other Professional, Scientific, and Technical Services
- 561410 – Document Preparation Services
- 562910 – Remediation Services
- 611710 – Educational Support Services
- 712120 – Historical Sites
- 813312 – Environment, Conservation and Wildlife Organizations

ACASS Ratings

Bioengineering Group routinely receives **Exceptional** and **Very Good** ACASS ratings from our DOD clients. In particular, for contract number W912P807D0062 a Rating Officials remarked, “The A-E did a very good job in meeting tight time schedules in putting together a substantial and thorough EAR for the WCC project. The A-E was extremely responsive to the Government's input during the development of the EAR and worked tirelessly to incorporate changes to the alternatives that developed as a result of the engineering analysis, input from local stakeholders, etc.” “The A-E provided extremely prompt geotechnical analysis of existing levees along the Algiers Canal in an extremely short period of time. The A-E was extremely cooperative with the government and provided results often before the contract schedule required them.”
